

# EPOXINET

**This product helps to clean off residues of CERPOXI- or PROFESSIONAL PX-type grouts during application.**

## WARNING

**EPOXINET** must not be used:

- ◆ to eliminate DRY epoxy residues (please use **FIX-GRAF STONE**).
- ◆ without taking the basic precautions required for handling chemical products. Use rubber gloves and protective eyewear.

## AMOUNT TO USE:

approximately 0.05 l/m<sup>2</sup>, depending on how much excess grout is to be removed or on the number of applications, diluted in a 3:1 ratio with water.

Dilution of **EPOXINET** in a 3:1 ratio with water.

## FIELDS OF APPLICATION

- ◆ **EPOXINET** is used to eliminate excess epoxy grout during its application while still wet.
- ◆ **EPOXINET** is a highly specialised product; it helps to **emulsify** epoxy residues with WATER, allowing them to be eliminated completely.
- ◆ It is especially useful when applying and cleaning **WHITE CERPOXI** and/or **PROFESSIONAL PX**, because this is the most difficult colour to emulsify with water.
- ◆ It can be used on both **INDOOR** and **OUTDOOR** floors and walls, as well as on swimming pools.
- ◆ It can be used to clean all the sponges, trowels, beaters, etc. used during the application of epoxy grout.

## TECHNICAL CHARACTERISTICS

**EPOXINET** is a complex formula based on organic esters designed to emulsify epoxy and water.

## HOW TO USE

- ◆ **EPOXINET** can be used either on its own or diluted in a 3:1 ratio with water:  
3 parts **EPOXINET** +  
1 part tap water
- ◆ For example, mix the following amounts in a bucket:  
5 litres of **EPOXINET** +  
a maximum of 1.5 litres of tap water. Stir gently for 30 seconds. Once made up, this mixture can be stored for later use.

## TECHNICAL SPECIFICATIONS

### PRODUCT:

- Type: cleaner containing organic esters.
- Density: 1,02 g/cm<sup>3</sup>
- Inflammable / Toxic: Yes / Irritating substance, avoid contact with skin and eyes. In case of contact, wash with water.
- Precautions: Do not ingest; use protective eyewear; keep out of reach of children; in case of contact with eyes, wash with water and consult a doctor; keep away from sources of sparks and heat.

### MIXING RATIO:

dilute the product in a 3:1 ratio with water.

### PACKAGING:

5 l drums.
